"Rody" Shiel Displays His Courage and Wins Admiration.

ST. LOUIS, June 14.-All but two or three of the members of the Indiana delegation are now in the city and the absentees will be in on the early morning trains. The delegation will meet to-morrow morning at its headquarters in the Planters' Hotel for organization. There is, of course, no doubt that Hon. Richard W. Thompson will be honored with the chairmanship. Mr. Fairbanks, having been agreed on for temporary chairman of the convention, will not act as a delegate, his place being filled by Hon. Hiram Brownlee, who was elected as first alternate. A movement was started last night to make Mr. Brownlee the member of the committee on resolutions in place of General Wallace, whose spirited interview with Chairman Gowdy yesterday has engendered the ill-will of the State chairman and some of his immediate followers. When this movement was brought to the attention of Mr. Brownlee he promptly and emphatically declined to be a party to it, saying that he was a warm friend of General Wallace and was heartily in favor of him being the recipient of that distinction. This apparently leaves the is best described by Messrs. Hargrove and field clear for General Wallace, who will undoubtedly be made the member of the committee on platform.

There is a very pretty and apparently close fight for member of the national committee between W. T. Durbin and E. H Nebeker, with Hon. J. N. Huston and R. O. Hawkins as possibilities, each having a few votes in the delegation. A few delegates are still noncommital and these hold along others will join us, travel with us and the balance of power, Nebeker and Durbin aid us in our labors." Mr. Hargrove said, in response to a question: "Will we visit India? Yes. After doing Europe we will visit Egypt and go thence to the home of our sect. Thus far it is decided that we will hold meetings in Calhaving ten or eleven votes each. The outcome it in much doubt.

When it became apparent to-night that General Wallace would probably be the member of the resolutions committee, a suggestion was made by some of those who are opposing him to tie him up by a resolution instructing him to favor the incorporation in the platform of the Indiana vention will end Wednesday night, for this evening Senator Quay, Senator Lodge and Mark Hanna met in the rooms of the latter at the Southern and agreed to push mat-

ters to a speedy conclusion. Hon. Charles W. Fairbanks is one of the most sought for among the big guns of the convention and his selection as temporary chairman has met the most general approval. His rooms have been filled all day by the party leaders from all sections of the country anxious to make suggestions and to lend him kindly assistance in the preparation of his speech. H. S. N.

"OOM JACK" NOT WANTED. Delegates May Resent His Attendance at Their Meeting To-Day.

Special to the Indianapolis Journal. ST. LOUIS, June 14.-There is much speculation as to what the Indiana delegation will do at its meeting to-merrow morning at 10 o'clock. Besides choosing a member platform and credentials committee of the convention are to be named. The election of a platform committeeman is apt to precipitate a warm discussion as to whether Indiana should take the forward step which other States have taken in the last few days on the money question and de clare in positive terms for gold, or whether she should stand by her own plank for general and Mrs. Morss, of Indianapolis.
There was splendid weather for the running of the Grand Prix to-day. President
Faure was loudly cheered on his arrival sound money. While a week ago the Easterners expressed themselves satisfied with any sound-money expression, they have made haste, since coming to St. Louis, to take advantage of the overwhelming sentiment for sound money and push it to an

corridors. The author of "Ben-Hur" is TTT always the target for numerous index ingers as he moves through the crowds, so great is his fame, and hosts of strangers call on him at his room to ask the privilege of shaking hands with him and exchanging a few words. For this reason the association of his name with a political breeze is attracting considerable attention. Gen eral Wallace said to Mr. Gowdy, to use his own words in this celebrated interview: "I would suggest that you keep your hands off the Indiana delegation, as your interference has already caused sufficient trouble in the State."

The contest for national committeeman warmed up this morning with the arrival of Mr. Nebeker, who at once held a conference with his friends. "When I started for St. Louis," he said to the Journal, "I thought I was out of the race, but I see I am still in it." His friends claim that he will have at least twelve votes on the first ballot and lead all other candidates, with W. T. Durbin, of Anderson, only a few votes behind him. It is also claimed that when the break is made from the other candidates Mr. Nebeker will be nominated. Mr. Millikan thinks Mr. Dudbin will be elected on the first ballot. Mr. Hawkins's strength is not exactly known, although he will probably receive a fair vote. Mr. Huston is the other candidate. Mr. Gowdy has been making strenuous efforts to secure the election of Mr. Durbin. G. L. P.

may find the stick to-morrow, along with the numerous other sticks that have fallen from these pyrotechnical presidential booms. McAlpine's crowds paraded the lobbies, and badges were offered to everybody who would wear one. The Indiana delegation has shown but little preference up to date for any particular tail-end man, nor did it take kindly to the McAlpine suggestion, although a few Hoosiers, including President A. M. Higgins, of the Indiana Lincoln League, were in the secret. The skyrocket was to go up at 9 p. m. promptly. They had their pockets full of badges, ready to pin on delegates when the hour arrived. One delegate from Indiana, however, recalled a bit of history from the national Lincoln League convention of 1894, when General McAlpine allowed an Indiana man to be defeated for an office after a combination had been effected with McAlpine's friends. This convention was held at Denver, and Robert E. Mansfield, now secretary of the Indiana State committee, was urged to become a candidate for national secretary of the league. He was informed that New York and other Easternwho were backing McAlpine for presidency would form a com with Indiana, Iowa, Colo and a number of Western States to make the slate read McAlpin and Mansfield. Everything was fixed everything would have gone through without a hitch had not W. W. Tracey, of Illinois, heard of the combine. Tracey's friends burned out the wires to New York, asking him to withdraw as a candidate for the Presidency, and some of those telegrams are said to have been fakes, purporting to come from McAlpine's friends in Denver. Although McAlpine was a fullfledged candidate, he laid down, and, as a result Tracey, of Illinois, was elected president and a New York man secretary. Even with the combination broken, Mr. Mansfield received one-third of the votes for secretary, but it was impossible to secure the presidency for Illinois and the secretaryship for Indiana. The next year McAlpine was elected president and attained national prominence. A man from lowa, who knew the bit

history, is responsible for conveying this inside information indirectly to Hoosiers to-night, and as a result the Mc-Alpine boom received its first chill in this

think he has a connection with the Cabots who were among the first discoverers of merica. I know that his great-grandfather, George Cabot, was in the Senate when Washington was President. He was elected in 1791 and served until 1796. Lodge is now in the Senate, a hundred years after his great-grandfather left it, the two men's terms beginning and ending a century of senatorial life. Mr. Lodge is a rich man. He has a large inherited fortune and can hence afford to

follow politics as a profession. Governor J. B. Foraker, of Ohio, will present McKinley's name to the convention Foraker will be fifty years old next month. He is straight, broad shouldered and well built. He has grown a little stouter of late years than when he was Governor of Ohio, but he is still one of the handsomest men in public life. His face is a strong one His forehead is high, his nose straight and his determined mouth is half covered with an iron gray mustache. He is a ringing speaker, and in 1884 and 1888 he made what were considered to be among the finest speeches of the two conventions. The last time he presented the name of Sherman. Now he is to present the name of Mc-Kinley. Foraker is a fighter. He is a man of wonderful personal magnetism, and he has a strong following in Ohio. His relations with McKinley at times have been rather strained, the two representing opposite factions in the Republican party, and the wisdom of choosing Foraker to present McKinley's name has, by certain small men, been questioned. Such men, however, do not understand, Foraker's caliber. He is a big enough man to rise above such petty considerations, and he will do all that he can to present McKinley in the best light. I had a chat with Mr. Foraker in the St. Nicholas Hotel this afternoon, and asked him as to how the audience of a national convention differed from an ordinary one. He replied: "I don't know that there is much difference. You know, speeches are largely made by the occasion and the surroundings, and there is no place more in spiring than that of a national convention. You have tifteen thousand of the best peo ple in the United States before you. They are strung up to the highest pitch of intellectual excitement, and, in addition, you

know that the tens of millions of Republicans and Democrats outside are waiting to hear what you have to say. The telegraph wires in the convention hall carry into every home in the United States, and to bring out all that there is in a man or a speaker. Speeches, however, depend very much on a man's mood at the time. A very little thing may knock one out. If a man is not thoroughly in sympathy with the occasion, if a cog gets wrong in his machinery, either physical or intellectual, he may not be able to do his best."

"Governor," said I, "it is supposed by some that this is your condition to-day. You are said to be not in accord with Mc-Kinley, and not in sympathy with the is the plank to which it is asserted he has

Since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency or to impair the credit of our country. We are therefore opposed to the free and unlimited coinage of silver except by international agreement, and until such agreement can be obtained we believe the existing gold standard should be preserved. We favor the use of silver as currency, but to the extent only that its parity with gold can be maintained, and we favor all measures designed to maintain inviolably the money of the United States, whether coin or "No," replied Governor Foraker, "I have paper, at the present standard, the standard of the most enlightened nations of the
